

Ensuring trust in the age of AI: research integrity and AI use at Springer Nature

Judith Terpos

Associate Publisher Life Sciences, Journals, Springer Nature, The Netherlands

In this webinar we will have a look at the following topics:

AI use by the community

How has the researcher behavior shifted? What do researchers use AI for? What are their concerns about misuse?

Research Integrity and AI Use

What changes are taking place in the landscape of AI and Research Integrity? What are the challenges? What is Springer Nature's approach?

Springer Nature AI Strategy and Policy

How can we best support researchers using AI? How does Springer Nature ensure trust, transparency and quality as AI grows?
